

Fig.1 Prior art

Fig. 2

FIG. 3 is a perspective view of a substrate 30 in accordance with the present invention. The substrate 30 includes a top surface 32, a bottom surface 34, and a side surface 36. The top surface 32 is covered with a layer of small, circular features 38, which are arranged in a regular, grid-like pattern. The bottom surface 34 is a smooth, flat surface. The side surface 36 is a vertical surface that connects the top and bottom surfaces. The substrate 30 is shown in a perspective view, with the top surface 32 and side surface 36 visible. The label 30 is located to the left of the substrate, with an arrow pointing to the top surface 32. The label 32 is located on the top surface, with a line pointing to the grid of features 38. The label 34 is located on the bottom surface, with a line pointing to the smooth surface. The label 36 is located on the side surface, with a line pointing to the vertical surface.
